### **Background of Blood Donation Camp:**

The purpose to organize a blood donation camp is to motivate people to donate blood and social works. The purpose of blood donation camp to select a suitable donor whose blood will be safe to the recipient and who himself shall not in any way be harmed by blood donation. Organization of blood donation camp should be best and safe to the patient/recipients and to the blood donor. Blood donation camp should motivate the public to donate blood by oral communication, which is the most effective method of recruiting donors. Talk about the need of blood, shortage of blood, ease of donation and myth about blood donation to the public. Only voluntary blood donors can help to maintain an adequate supply of blood to save the lives of those who are in need. Conducting voluntary blood donation camp efficiently and regularly will provide adequate round the clock availability of blood units during emergency situation and they are the sources of safe blood also. By donating blood, one gives a second chance of life to someone unknown. Blood donation is a divine experience. One unit of blood saves three lives. Donating blood may reduce the risk of heart disease and stimulate the generation of red blood cells. There is no substitute for human blood. It can be acquired only from a generous blood donor.

### **The objectives of the Blood Donation camp:**
