ABOUT THE ORGANIZING INSTITUTE

Mugberia Gangadhar Mahavidyalaya, NAAC Re-Accredited and NCTE approved institution, was established on 2nd July 1964 as co-educated college in Bhupatinagar village situated in Bhagwanpur II Block under Contai Sub-Division of Purba Medinipur District, West Bengal by a society of the same name. From its very inception the college is trying to full fill one of the noble objectives “To promote educational facilities of all types, including studies in Arts (Humanities), Science, Technical and Vocational Courses”. This degree college began as an Arts college, but now it expands by opening three streams – Arts, Science, Commerce and a Physical Education Training Course (B.P.Ed & M.P.ED). It even runs PG courses in Mathematics, Bengali and also runs many job oriented courses like Advance Diploma in Tourism and Hotel Management under UGC Community College, certificate course in income tax practice, Yoga Therapy etc. Now the college has earned College with Potential for Excellence status under UGC XII plan. Thus the goals of the society are transmitted into academic and extension activities.

BACKGROUND OF THE SEMINAR

Sustainable development, especially since the 1992 United Nations Conference on Environment & Development at Rio de Janeiro, has become an emerging theme in local, national and world policy, and increasingly a central theme for the engineering professions around the world. Sustainability has been as “meeting the needs of the current generation without impacting the needs of future generations to meet their

own needs” and is often interpreted as the simultaneous advancement of prosperity, environment, and society. The future is going to be largely what we design it to be. The role of engineers, designers and all citizens should be central and essential in determining what tomorrow will look like. As population growth, global warming, resource scarcity and environmental degradation have increased, it has become time to think that how can the goal of sustainability be effectively achieved.

This will require a new design framework that incorporates sustainability factors as precise performance criteria.

THRUST AREAS

Green Engineering,
Energy and Environmental Issues,
Renewable and Alternative Energy,
Energy Harvesting / Energy Saving,
Energy Storage, Green Building/Materials,
Use of Green Chemistry for sustainable development

Call for papers

Interested participants are requested to send abstract of not more than 500 words with full paper of not more than 5000 words through Email.

Call for Posters

Abstract for Posters are invited on the sub themes of the seminar from research scholars or students of different Colleges /Universities for presentation.

Important Deadlines

Submission of Abstract (paper/poster): **15 .08.18**

Submission of full paper: **20-08-18**

Last Date of Registration: **20-08-18**

Registration Fee(Without accommodation):

Scientists/Faculty Members: (Paper/Poster): **₹500/-**

Students/Research Scholars(Paper/Poster): **₹ 200/-**

N.B. – TA (Sleeper Class Train Fare and Bus Fare)

will be provided to the paper presenter. In case of joint paper presenters TA will be provided to one of the paper presenters.

The presented paper /poster will be published in seminar proceeding with ISBN.
