EDUCATIONAL TOUR 2021-2022

The study tour as per the course curricular was an exposure to visit a place of historical importance as well as educational importance too. Students can get information from that particular area and they can relate their imagination. Our tour programme was planned for five days including three nights and two days. It was a journey from our college to different places of Orissa such as Puri, DhabalGiri, Udaygiri, KhandaGiri, Konarak, KIIT University, Debkundu, Lingaraj Temple, PanchaLingeswar, etc. The tour was conducted with the help of a tour conductor, which was finally done by two busses. Only BPED 4th sem and Mped 4th students were participated on that particular tour which was compulsory for their course curriculum. A Total number of 93 students has been participated on that particular tour programme along with three (3) male teachers and one (1) lady teacher.

OBJECTIVES: The expected outcomes include the particular situation for the students to learn and get acquainted with that particular condition and understand the particular situation. It's not only provided the good opportunities but also gives some different awkward condition for the students to overcome and accustom with that particular condition. Although the educational tour is a compulsory task for all the outgoing students those who are in the end semester that was 3rd sem Bped and 3rd sem Mped students. It's an educational tour because the course curricular has been directly related to the history which has clearly stated in Course curricular. Students can learn and get the information regarding infrastructures in an educational institution. This is done so that students can look into a particular topic from all possible perspectives enabling them to learn everything. It has also been proved that field trips are an excellent way for incorporating knowledge into young minds. This also helps students to learn and understand topics on their own without further explanations.

REPORT: Student have gathered in front of their hostel in 9.00 pm and started their journey after 30 minutes. After that they have visit first in Nandankanan a zoological park a place of historical importance it's not only zoo but also lot of things to see . During the ride, teachers explained to the students what a field trip was and why it was conducted? It was a different experience from classroom learning. The students grasped the concept much faster. The method of learning through experience was different. They could learn things outside textbooks. The entire student gets their lunch on that particular place and after that they have started their journey for KIIT. during this journey they have visited Udaygiri, Khandagiri. We have already known that KIIT has excellent infrastructure and accommodation for the students and it has the capacity to organise any types of international event. After completing the visit of different site of KIIT they have started their journey toward Puri temple. After visiting such holi place all the students were returuned back to their final destrination.
