1. Introduction and Significance of the programme:

The status of employment in India has been changed due to evolvement of the economy. The changing career patterns indicate that individuals can expect to hold various careers throughout their lives. The need for career counselling grew due to the various career transactions an individual goes through. A career counselling is a process that will help the students to know their hidden abilities by which they can make good career. Career counseling programme helps the students to know the capability, skill, training, guidance etc. that will motivate the students towards the process of getting job what they want. In fact, a career Counseling is a process that will help you to know and understand yourself and the world of work in order to make career, educational, and life decisions. Career development is more than just deciding on a major and what job you want to get when you graduate. Career Counselling helps them understand their own strengths and weaknesses with regard to their present course or profession, and lets them know what career they would be suited for.

The counseling programme helps the students to know the process of developing the self-awareness, self-confidence and the self- dependent. The whole process of counseling depends on the few steps such as planning, exploration, decision-making, preparation and implementation. It follows the few things; these are abilities, interests, personality, skills, performances, guidelines of counselors, preparation of action plan and implementation. Most schools have interest to organize many programmes on career counselling such as seminar, workshop, training, etc. The invited counselors guide the students to develop their awareness and skill in their social and academic ventures, and for these, they suggest to conduct workshop on career planning, and to organize career counseling programme in schools. In order to indemnify your best opportunity or best career, an effective career counseling programme is very necessary. Career counsellors are known as experts, they help the students to develop personality, to evaluate interests, and to motivate towards the right career choice.

After receiving the proposal of a career counseling programme submitted by Dr. Swapan Kumar Misra, Principal of Mugberia Gangadhar Mahavidyalaya, Mr. Ashim Kumar Patra, Headmaster of Jukhia K.N.
