Seminar on

Environmental Sustainability Challenges and Approaches.

Organized by

Department of Physiology, Botany and Economics

In collaboration with IQAC

Mugberia Gangadhar Mahavidyalaya.

Date: 04/12/2023 Time: 11:15A.M.

Venue: S.N.BOSE HALL,

Mugberia Gangadhar Mahavidyalaya.

"Environmental sustainability: Challenges and approaches"

Jointly Organized by Departments of Botany, Economics & Physiology,

Mugberia Gangadhar Mahavidyalaya

(A College with Potential for Excellence, DBT Star College, Re-accredited by NAAC 3rd Cycle with Grade B+, Affiliated to Vidyasagar University, West Bengal, India)

In Collaboration with IQAC, Mugberia Gangadhar Mahavidyalaya

Eminent Speakers:

Prof. Amal Kumar Mondal, Professor & HOD, Department of Botany & Forestry, Vidyasagar University

➤ Dr. Soumyabrata Banerjee, Assistant Professor, Department of Human Physiology, Vidyasagar University

Date: 04.12.23 Time: 11.15 am Venue: S. N. Bose Hall

Introduction

Smt. Tanushree De and Smt. Sujaya Mahapatra Convenor of the seminar, commenced the event by emphasizing the criticality of addressing environmental sustainability challenges. She highlighted the urgent need for collective action to preserve our planet's ecological balance and introduced the esteemed speakers who would shed light on various aspects of this pressing issue.

Importance:

Dr. Swapan Kumar Misra, Principal of Mugberia Gangadhar Mahavidyalaya, underscored the significance of environmental sustainability in his welcome address. He stressed the role of educational institutions in fostering awareness and driving initiatives toward sustainable practices. Dr. Misra emphasized the interconnectedness of environmental health with human well-being and the importance of adopting holistic approaches to tackle environmental challenges.

Keynote Address by Prof. Amal Kumar Mondal:

Prof. Amal Kumar Mondal, Professor and HOD of the Department of Botany and Forestry at Vidyasagar University, elucidated on the multifaceted challenges posed by environmental degradation. Drawing upon his expertise, he delved into the intricacies of biodiversity loss, deforestation, and climate change. Prof. Mondal emphasized the need for interdisciplinary collaboration and innovative solutions to mitigate these challenges. He also highlighted the role of botanical research in conservation efforts and emphasized the importance of sustainable forestry practices.

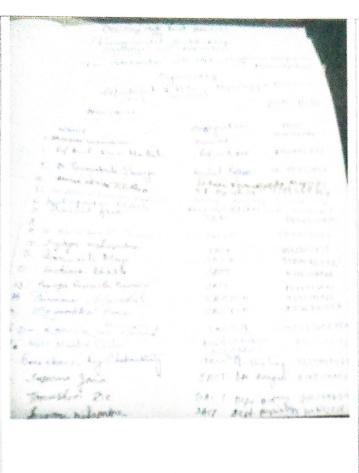

Presentation by Dr. Soumyabrata Banerjee:

Dr. Soumyabrata Banerjee, Assistant Professor in the Department of Human Physiology at Vidyasagar University, provided insights into the human health implications of environmental degradation. He discussed the adverse effects of pollution, habitat destruction, and climate change on human physiology and emphasized the importance of adopting lifestyle changes to mitigate these impacts. Dr. Banerjee underscored the need for public health interventions and policy measures to address environmental health disparities and promote sustainable living.

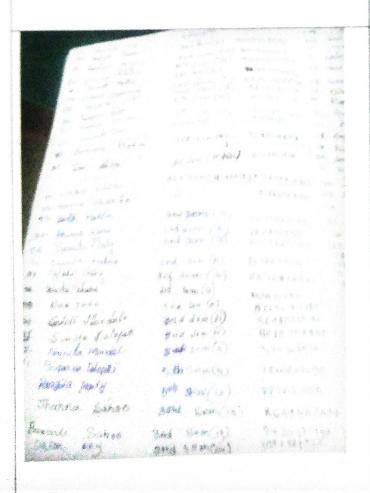

Conclusion:

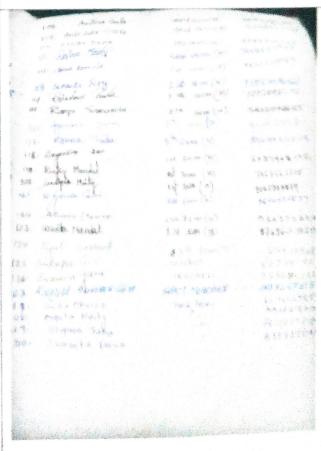

The seminar concluded with a call to action, urging participants to actively engage in efforts to promote environmental sustainability. The speakers reiterated the importance of collective responsibility and collaboration across disciplines to address the complex challenges facing our planet. It was emphasized that through education, research, and community engagement, we can strive towards a more sustainable and resilient future for generations to come.
