APC Roy Memorial Lecture -6 (2022)

Mugberia Gangadhar Mahavidyalaya organized a special program to commemorate the 162nd Birthday of Acharya Prafulla Chandra Ray, recognized as the father of Indian Chemistry. The event, held in offline mode, featured Dr. Bijan Kumar Das, Professor at Presidency University, Kolkata, India, as the Keynote Speaker.

Dr. Bijan Kumar Das delivered an insightful keynote lecture that added significant value to the program, enriching the knowledge of both faculty and students in attendance.

In addition to the keynote lecture, the event included two engaging competitions: a poster competition and a model competition. These competitions focused on critical environmental issues such as soil pollution, water scarcity, solid waste management, and green energy. The objective was to involve and inspire local school and college students to actively engage with and contribute to solutions for these pressing challenges.

The program served not only as a tribute to Acharya Prafulla Chandra Ray but also as a platform for knowledge exchange and collaboration. The students, in particular, benefited from the valuable talk by Dr. Bijan Kumar Das, gaining insights that will undoubtedly shape their academic and environmental perspectives.
