Objectives:

- ❖ To promote the planting of trees as a Healthy lifestyle.
- ❖ To raise awareness against the dangers of deforestation.
- ❖ To mobilize resources for the expansion of woodland.
- ❖ To monitor and support communal eco friendship.

The aim of tree plantation and Sapling distribution is one of the noble works to our society. Tree planting is recognised as one of the most engaging, environmentally-friendly activities that people can participate in to help the planet when done properly. Tree plantation is significant because it is linked to our basic need for good food to eat and clean air to breathe. Aside from these necessities, they preserve biodiversity, conserve water, preserve soil, and control climate, among other things. In this auspicious programme, we planted some saplings in our adopted village and distributed saplings to the volunteers, students, teachers and farmers particularly across rural communities in Bhupatinagar. A total 83 participants participated in this programme. Among them 14 male and 57 female NSS volunteers, twelve faculty members including NSS programme officers and our honourable principal, Dr. Swapan Kumar Misra, took part in this programme. Respected Principal and others Program Officers of Mugberia Gangadhar Mahavidyalaya distributed few saplings to nearest adopted village and others saplings distributed to the School Students in this locality. The program was completed successfully with the active participation and encouragement of all participants and they enjoyed a lot.
