Theme of the Webinar
 Natural and synthetic chemical compounds have served mankind for healing and life saving purpose since ancient times. However better understanding of human physiology, its working procedure, constituent elements of human body, its interaction with environment along with the development of technology in different field of science has triggered discovery of newer drug molecules with better healing abilities. Development of inorganic materials like polymers, nano-materials is coming up with emerging techniques of drug delivery with better results for treatment of cancer, heart blockage, cataract etc. Nanomaterials are coming up with their antibacterial, antiviral effect for fighting pandemic situations like COVID 19. Uses of newer inorganic elements are also finding their abilities towards new possibilities in therapeutic use.

Sub Theme:
 Sustained drug delivery, Controlled drug delivery, Therapeutic use of Nanomaterials, Nanotechnology and drug delivery, Nanomedicine, Therapeutic use of Organosoluble compounds, Nanomaterials against COVID, Nanotechnology to fight cancer, Targeted drug delivery, Ocular drug delivery, Transdermal drug etc.

Theme of the Webinar
In the present century, we are living in an era of pollution of all types. Prevention of pollution is an uphill task before mankind. At present we are faced with an unprecedented crisis in the form of corona virus. One can only sense that the world will be faced with such crisis more often than not in future. The sages of yore had a vision of life. They strongly pleaded for preventing mind from pollution. If the mind is purified, they argued, other types of environmental pollution can be minimized, if not totally prevented. Our 'Vedas' are the repository of human knowledge for human beings. They contain the essence of integrated approach when knowledge, emotion and action are reconciled to enable the individual and the group to lead a healthy and purposeful life. Our International Webinar would deliberate on this central idea of combating with corona virus through the ancient science of Ayurveda.
